Mike Jones - Resume

MICHAEL E. JONES

AI Implementation Expert & Technical Program Leader

San Jose, CA 95126 | 206-818-7673 | mike@jones-co.us
linkedin.com/in/mejones73 | github.com/tinybiggss | mikejones.online | resilient-tomorrow.com

PROFESSIONAL SUMMARY

AI Implementation | Product Leadership | Technical Program Management | Fractional COO

AI-Augmented Organizational Intelligence Architect driving transformative technology initiatives across gaming, entertainment, and media. Pioneering the intersection of traditional program management with cutting-edge AI/automation to build scalable organizational systems. First 1% ChatGPT user (2022 – 2025) with proven expertise implementing AI agents, RAG systems, and automation workflows that deliver measurable operational improvements.

Core Expertise:

- **AI & LLM:** LLM integration, RAG & context engineering, agent orchestration, Generative AI strategy, prompt engineering, local/self-hosted AI, AI-augmented process design
- **Product:** Product strategy & roadmap, prioritization, product-market fit, 0-to-1 product launches, hardware + software delivery, live operations, go-to-market
- **Leadership:** Fractional PMO, organization & process design, cross-functional orgs of 120-250+, $12M+ program budgets
- **Methodologies:** Strategic AI integration, Agile & Hybrid Methodologies, RACI/swimlanes/value-stream mapping, Product Lifecycle Management, Cross-Functional Leadership, Stakeholder Alignment

CERTIFICATIONS

1. **Claude Certified Architect – Foundations (CCAR-F) — Anthropic** | Issued Aug 2026 | credly.com/badges/d0bcd7cb-a25a-4c57-a22e-0303c6912626 | Scope: Claude Code, Claude Agent SDK, Claude API, MCP
2. **Project Management Professional (PMP)** — Project Management Institute
3. **Certified Scrum Master (CSM)** — Scrum Alliance
4. **Certified Scrum Product Owner (CSPO)** — Scrum Alliance
5. **Product Management** — Skillsoft
6. **NLP Master Practitioner** — NLP Institute of California

PROFESSIONAL EXPERIENCE

Fractional VP of Product & CAIO | Velocity Partners

San Jose, CA (Remote) | 01/2020 – Present

Product Evaluation | Fractional COO | AI Process Integration

- **Product Evaluation:** Assess AI/automation and product readiness for 50-1500-employee companies in gaming, entertainment, and media — workflow audits, build-vs-buy evaluations, and prioritized implementation roadmaps through a three-tier delivery model (Workflow Assessment, Implementation Sprint, Fractional PMO Retainer)
- **AI Process Integration:** Pair RACI/swimlanes/cadence design with n8n workflows, AI agents, webhooks, and organizational memory systems — taking AI implementation from demo to dependable
- **Fractional COO:** Own operating cadence, organization design, hiring triggers, and cross-functional execution for client leadership teams, enabling scale without disruption
- **Tool Ecosystem Implementation:** Administered JIRA, Smartsheet, Confluence with custom workflows, automation, and dashboards achieving 3x operational efficiency (measured by task velocity and epic completion rates)
- **Ambiguity Resolution Systems:** Designed pre-production frameworks for requirements gathering, risk management, and deliverable definition improving estimation accuracy by 80%+

- **GHN AI Instructor:** Teach AI and Claude Code courses for Get Hired Now Academy's senior career-changer programs; AI Fluency Lab cohorts running since August 2026; co-designed a CCAR-F certification-prep course curriculum (syllabus approved)
- **GHN AI Advisory:** Built GHN's AI course product and positioning end to end — "Close the AI Confidence Gap" course concept, launch sales page, and Executive Portfolio-Building track upsell

Founder & Independent R&D | Jones Collaboration Company, LLC
San Jose, CA (Remote) | 2022 – Present

- **R&D studio** for persistent-agent systems, cross-LLM memory, and agent-queryable knowledge bases; incubated Resilient Tomorrow, NeighborhoodShare, and Distills — detailed under AI Products & Ventures below

Principal Technical Program Manager | Kinoo
Mountain View, CA (Remote) | 04/2020 – 12/2022

- **Led end-to-end program** for an award-winning AI-powered social communication/game platform coordinating 120+ professionals with a 3-year $12M+ budget — won **10 prestigious awards** including the **2022 CES Innovation Award** and **2021 Good Housekeeping Best Toy Award**
- **Cross-Functional Leadership:** Managed Application Development, Hardware Engineering, Integration, Customer Support, Analytics, Marketing, and Sales teams
- **Operational Excellence:** Established standards (naming conventions, scheduling templates, dashboards, build environments) reducing planning time 30%+ and achieving a 100% product launch success rate
- **Stakeholder Management:** Coordinated stakeholder relationships, partner integrations, and business development resulting in successful market entry

Co-Founder / COO | 8 Circuit Studios
San Jose, CA (Remote) | 04/2017 – 03/2020

- **Vision Leadership:** Defined a new product ecosystem integrating blockchain technology into gaming experiences; owned full lifecycle from concept to launch to post-release operations
- **Partnership Development:** Built relationships with technical and non-technical partners, licensors, and service providers
- **Product Development:** Created comprehensive software requirements, roadmaps, user stories, and schedules; ran extensive interviews, polls, and alpha/beta testing for high-quality player experiences
- **Strategic Planning:** Charted B2B and B2C growth roadmap based on industry trends maximizing profitability opportunities

Technical Program Manager – Video on Demand | Verizon
San Jose, CA | 10/2015 – 03/2017

- **Scale Management:** Unified 250+ employees across five departments and two business units
- **Platform Enhancement:** Improved IPTV service and mobile social entertainment application
- **SDLC Oversight:** Managed multiple project lifecycles ensuring best practices from pre-production to post-launch
- **Cost Optimization:** Drove operational improvements and efficiency reducing costs through agile methodology adoption

Director, Software Engineering Services | Livescribe
Oakland, CA | 05/2012 – 02/2015

- **Agile Adoption:** Pioneered agile methodology enhancing product development and cross-team communication for software; applied waterfall methodologies to hardware development for cross-department compatibility
- **Team Building:** Established Build & Release and Automation teams improving release frequency and stability; managed live operations and feature enhancements
- **Process Innovation:** Revolutionized the estimation process with standardized workflows improving production and communication
- **Product Vision:** Developed feature concepts, requirements, and user stories securing stakeholder buy-in and successful implementation

Director, Engineering Services | Kabam
San Francisco, CA | 04/2010 – 01/2012

- **Department Leadership:** Managed 70+ staff with $4.5M annual budget across QA, Automation, Build & Release, and User Research
- **Agile Transformation:** Pioneered agile methodology adoption improving development processes organization-wide
- **Quality Systems:** Led QA and Usability Testing establishing Alpha/Beta programs for pre/post-release excellence; streamlined processes improving product quality and delivery speed

Director-Level Roles | Playdom (acquired by Disney Interactive)
San Francisco, CA | 2009 – 2010

- Built and led multiple departments focused on enhancing player experience and development support for a fast-scaling social gaming studio

Software Development Engineer in Test (SDET) | Microsoft
Redmond, WA | 12/1999 – 09/2006

- **Historic Launches:** Contributed to both **Xbox and Xbox 360 platform launches** as core team member; shipped **6 AAA game titles** across both platforms
- **Patent Holder:** Awarded **patent for video game instrumentation method** (Xbox SDK) enabling kill shot replay feature in Halo franchise
- **Quality Leadership:** Established testing frameworks and automation for first-party game development

AI PRODUCTS & VENTURES (2022 – PRESENT)

Distills | distills.app | Open-Source AI SaaS
Feb 2026 · Engine open-sourced as Distill: github.com/Jones-Co/distill (MIT)

- Turns a career into an interactive AI profile — recruiters and hiring managers get to know a candidate before the first call; originated as the engine behind the mikejones.online career assistant
- Shipped full stack on Cloudflare Workers + D1 + R2: career documents parsed into a knowledge base, deepened through an AI-conducted interview, deployed as a ~15KB embeddable chat widget

NeighborhoodShare | neighborhoodshare.app | Community Platform
2025 – Present

- Hyperlocal resource-sharing platform that evolved from tool-sharing into party-rental micro-businesses — proving product development and market validation in real communities
- Real traction: 170 users across 20 communities

Agent Stack & Local AI Infrastructure | Corvus · Hermes · OfflineAI
2023 – Present

- Persistent-agent stack (Corvus, Hermes): personal AI agents with semantic memory on local Ollama embeddings, hybrid Python + LLM execution, and cron-driven daily briefings — privacy-first, running on always-on local hardware
- Local-first LLM infrastructure (OfflineAI): production-grade, always-on Ollama deployment serving 10+ local models (Qwen3.5, Qwen2.5, Llama 3.1, Gemma 3) for private, on-device inference; n8n automation workflows connecting calendars, document processing, and task management
- Cross-LLM memory & knowledge bases: shared JSONL memory ledger and RAG knowledge bases (200+ verified entries) that every agent across projects reads and writes as a single source of truth

MikeJones.online | AI-Implementation Portfolio
2024 – Present · Relaunched January 2026 (Astro)

- Multi-agent case-study production: PM, technical-research, and web-content agents coordinated over NATS JetStream messaging; structured AI interviews produce 1,500-3,000-line technical documentation and verified RAG updates per project
- Complete professional portfolio delivered in 2 weeks using AI-augmented workflows (traditional timeline: 2-3 months), demonstrating 6-10x efficiency improvement

- Agent-queryable by design: serves llms.txt, an agent knowledge-base endpoint (/agents/kb), and a structured RAG knowledge base (fact/narrative/qa_pair/technical entry types) as its own source of truth

ChatGPT Early-Adoption Credentials | Verified
2022 – 2025

- First 1% of ChatGPT users globally with top 3% message volume — 9,751 messages across 439 conversations; "The Strategist" elite archetype (3.6% of all users; Year-in-Review 2025)

TECHNICAL SKILLS

AI & Automation: Large Language Models (Claude, ChatGPT, Ollama/local LLMs), Claude Code & Claude Agent SDK, Model Context Protocol (MCP), RAG Architecture & Context Engineering, Multi-Agent System Design & Orchestration, AGENTS.md / llms.txt Conventions & Agent-Queryable Knowledge Bases, Cross-LLM Memory Systems, n8n Workflow Automation, NATS JetStream Messaging, Prompt Engineering

Program/Project Management: JIRA, Confluence, Smartsheet, Trello, Asana, Agile, Scrum, Kanban, Hybrid Methodologies, RACI Matrices, Swimlanes, Value Stream Mapping, OKRs, KPIs, Risk Management & Mitigation

Development & Infrastructure: Python, Git/GitHub, Cloudflare Workers/D1/R2, Docker, CI/CD Pipelines, Ghost CMS, WordPress, Astro, Linux System Administration, Self-Hosting, API Design & Integration

Content & Communication: Technical Documentation, Stakeholder Communication, Executive Presentations, Content Strategy & Publishing, AI-Assisted Content Production

EDUCATION

Bachelor of Applied Science — Computing & Software Systems
University of Washington, Bothell, WA

Bachelor of Arts — Political Science & International Relations
University of Washington, Seattle, WA

PUBLICATIONS & THOUGHT LEADERSHIP

- **Resilient Tomorrow** | resilient-tomorrow.com | 2025 – Present — Substack publication on community self-organization, mutual aid networks, and cooperative economics; **2,400+ subscribers**, top essay **~1,300 likes**, **27+ dispatches**; template packs and live classes with free resources at resilient-tomorrow.com
- **Velocity Partners Essays** | Substack · LinkedIn · mikejones.online — AI-agent operations and organizational memory essays (e.g., "I Replaced My Agent's Obsidian Memory with a JSON File")
- **MikeJones.online Case Studies** | 2026 – Present — AI-augmented project management case studies: multi-agent coordination, RAG implementation, local LLM infrastructure, platform cooperative development
